

CCR, an ISO 9001:2008 certified company, offers a full line of sterile and non-sterile cleanroom products to pharmaceutical and biotechnology manufacturers. Because CCR understands the exacting standards required of your industry, lot recall, lot traceability and validation protocols are available on all sterile products.

From garments to stationery, disinfectants to floor mats, we offer a wide-range of products to control impurities, micro-organisms and endotoxins in your clean/aseptic environment.

With over 20 years of technical expertise, our experienced team provides leading-edge technologies to suit your unique requirements.
